

Inspired by Cézanne; colors of Provence.

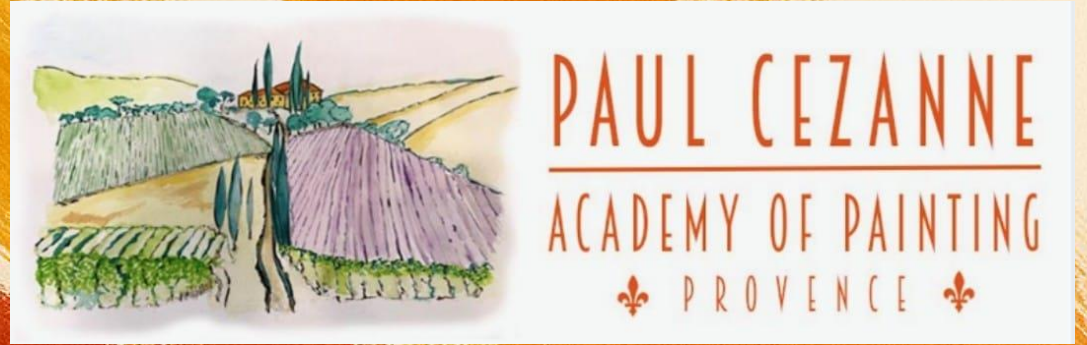

2-day workshop, 9 a.m. to 1 p.m.

Day 1: Still life in the studio

Bathed in the soft light of Provence, everyday objects come to life.

Guided by the spirit of Cézanne, you will explore the balance of forms and the magic of colors, in an atmosphere where every brushstroke becomes poetry.

In the Footsteps of Cézanne – Constructing the Landscape.

Day 2: How do you transform a landscape into a painting?

Drawing inspiration from Cézanne's approach, you will learn to observe in a new way: breaking down forms, organizing planes, seeking out color relationships, and creating depth through brushstrokes.

Using landscapes of Provence as a starting point, you will create your own interpretation, balancing observation and creative freedom.
